

## Speads RM07 F-1000

The Speads RM07 is a new generation single seater formula race car designed to compete in SCCA F-1000 (FB). Designed and built in South Africa and homologated for SCCA competition, the Speads boasts the first Formula One style body in the world for this class of racing, an immensely strong tubular chassis, and the latest in safety features. The RM07 can accommodate a variety of motorcycle engines, so plug your favorite motor into our roller, and go racing!

Contact us today to learn more about this exciting new formula car!
